

Start creating with your new music software

Bitwig Studio 8-Track

Your Morph comes with a free copy of Bitwig Studio 8-Track, a modern Digital Audio Workstation (DAW) with incredible synths, a clip-grid, magical modulators, and productive workflow. Bitwig Studio 8-Track is a great introduction to one of the most ground-breaking DAWs, Bitwig Studio. The Morph is tightly integrated as a control surface, and provides a seamless experience with MIDI Polyphonic Expression (MPE). Make great music with this 8-Track version of Studio, and if you want to upgrade to the full Studio, you'll automatically get \$40 off. 8-Track Studio is completely functional - no timeouts or beeps - just ready for your imagination to create your sound.

- Create an account and register your serial number at [Bitwig](#).
- Download [Bitwig Studio](#).
- Authorize Bitwig Studio with your Bitwig account. It will run as Studio 8-Track with your authorization.
- Learn how to use the Bitwig Script from our [guide](#) or [tutorial video](#)

Arturia Analog Lab Lite

Every Morph comes with a free copy of Arturia Analog Lab Lite. Filled with amazing sounds from vintage synths and stunning pianos, Arturia Analog Lab Lite is a fully functional standalone and plugin software that works great with the Morph. To download and register your free copy, visit the [Arturia quickstart page](#).

If you find you want to dig deeper with more sounds and richer editing, you can upgrade to Analog Lab Full for a mere \$29 (\$120 off) or the entire V Collection 6 for \$100 off.
